MATCHING CHALLENGE

You guys are incredible! Right now our matching challenge is up to \$322,653 from over 300 donors! Thank you so much to everyone who has participated so far.

Every donation this year is being matched by an anonymous donor who has challenged PXE International to raise \$500,000. Thanks to your generosity we have made so much progress toward that goal! Keep encouraging your friends, family, co-workers etc. to donate and remind them that every dollar will be matched.

WEBSITE RE-LAUNCH

You may have noticed that our website has been under construction lately! We are proud to say our new website has finally launched. We are still at the same web address so you don't have to look too far to find our new and improved site.

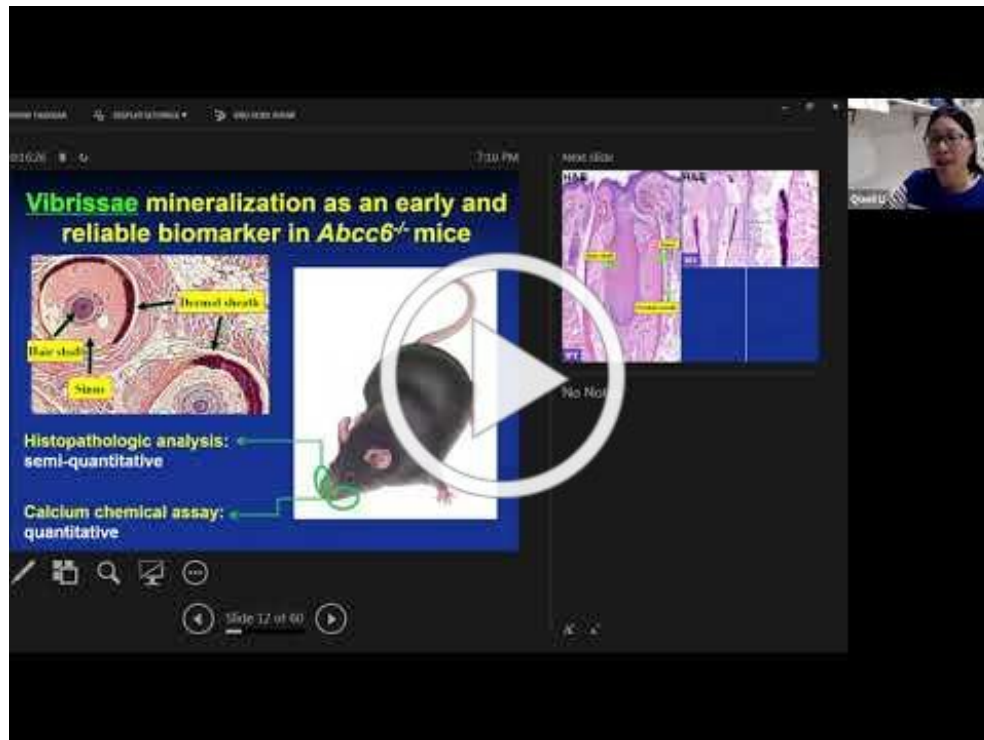

Part of our mission is to provide support for individuals and families affected by Pseudoxanthoma Elasticum, and to provide resources for those affected, as well as the health care professionals who serve them. This website is designed to serve you, so we want to hear from you about it. Let us know what's working and what isn't and what you would like to see!

WEBINAR SERIES

Join our webinars to get the latest updates on PXE Research right from the researchers themselves! Click the titles below to register for the webinars you would like to attend. April is the last month that we have webinars scheduled for now, so make sure you sign up if you want to participate!

- **April 2 @ 12pm EST:** [Patrick Thibodeau - Insights into ABCC6](#)
- **April 16 @ 7pm EST:** [Koen van de Wetering - Targeting the Pyrophosphate Shortage in PXE](#)
- **April 17 @ 3pm EST:** [Olivier Le Saux - ABCC6 Pathways and Dietary Pyrophosphate in Calcification](#)

View our latest webinar with Qiaoli Li on Mouse Models and Modifier Genes here:

You can view all of our previously recorded webinars on our YouTube channel!
